Portable & Folding Solar Panels

Portable solar panels Carry it outdoors

Easy for users to use and carry, just plug and play, and charge various mobile devices such as mobile phones, tablets, digital cameras, etc. through USB output.

■ Easy to carry

Portable or handbag design make it easy to transport and carry.

■ Customized

The size of panels can be customized according to different needs of customers.

■ Well waterproof

With IP65 water-resistant can protect it from water splashing and require far less maintenance.

■ High conversion efficiency

High efficiency mono solar cells are used to give it fast charging rate.

■ Excellent outdoor performance

It is water-resistant to endure all weather conditions, ideal for outdoor activities.

Portable design escorts your power supply

Portable solar panels - IN Series

*Standard test conditions: irradiance 1000W/m², component temperature 25°C, wind speed 0m/s, AM=1.5

Cell type	Pmax(W)	SKU	Vmp(V)	Imp(A)	Voc(V)	Isc(A)	Unfolded Size(mm)	Folded Size(mm)	Weight(kg)	Packing(mm)
